Licking Memorial Hospital Community Cornerstone Club

We invite you to join the Community Cornerstone Club of Licking Memorial Hospital (LMH). The Community Cornerstone Club was founded in June 1987, in recognition of and deep appreciation for LMH supporters. This group of community leaders is the foundation of LMH's success because of the dedication to ensuring that the latest advances in medical technology are available to the citizens of our community.

Your Contributions Are Vital

Your gift provides the vital margin which enables LMH to provide extra service to you and the community. Donations are used to provide new medical equipment and/or expanded services. They do not assist with general operating expenses.

Community Cornerstone Club Funds Have Helped to:

- Purchase additional radiology equipment to expand services at Licking Memorial Women's Health.
- Build a Women's Imaging Center.
- Create a seven room Step-down Unit located in the Critical Care area.
- Provide facility improvements in the Hematology/Oncology Department at LMH.
- Provide new equipment and updates as part of the Radiology Department expansion.
- Provide the CBORD Food Service Suite and Aladdin Temp-Rite Meal Delivery System to provide an additional layer of safety for dietary restrictions as well as assist in providing personalized meal selections to our patients.
- Obtain a state-of-the-art nurse call light system that ensures a rapid alert process notifying physicians and staff of a patient's condition and needs. A touch screen station in all patient rooms connected to LMH's electronic medical record will allow the staff to quickly access important information about the patient's care.

Recognition

Your name will be listed in the LMHS Annual Report and other Hospital publications, and as a new member, you will receive a replica of the building at 1320 West Main Street. As you continue your yearly membership contributions and reach various giving levels, you will receive additional pieces from the "Main Street Collection."
